

OUR PARTNERSHIP

A commitment to flexible funding

As one of our top core donors, Australia is enabling UNFPA to advance the rights and choices of women and girls worldwide. Core funding empowers UNFPA to mount a nimble response to complex crisis and deliver long-lasting results that promote, protect and fulfill human rights.

Partnering for the Pacific

Women and girls in the Pacific face particular vulnerabilities due to pervasive inequalities as well as insecurity resulting from natural and climate-related disasters. Together, UNFPA and Australia are providing contraceptives and vital maternal health medicine to achieve transformative results.

Allies for women and girls in crisis

In the onset of a crisis, women and girls face immense challenges. Core and other flexible funds mean UNFPA can plan ahead, be prepared and mount a nimble response to complex crises. Australia's humanitarian support means UNFPA is able to deliver sexual and reproductive health services and gender-based violence response and prevention to the most vulnerable women and girls.
