

OUR PARTNERSHIP

A global force for health and equality

The European Union, through the Commission and “Team Europe”, is a strong political and financial partner of UNFPA, focused on sexual and reproductive health and rights and the elimination of gender-based violence and harmful practices.

A partner in times of crisis

UNFPA and the European Commission work together to reach all women and girls in need, offering support during and after crises in 14 countries, and ensuring that humanitarian responses include services for sexual and reproductive health and gender-based violence.

European Union funding makes a difference

The European Union is making a difference in the lives of women and girls, particularly to end all forms of violence against them through the EU-UN Spotlight initiative. The European Union also contributes to the Supplies Partnership and joint programmes to eliminate female genital mutilation and end child marriage.
