

# OUR PARTNERSHIP

## Elevating gender equality and women's health

The Netherlands is a strong and steadfast advocate of women's and girls' health and rights and one of UNFPA's largest supporters.

## A partner in health for all

Global health, particularly sexual and reproductive health and rights, is a major priority for the Netherlands. The partnership between UNFPA and the Netherlands focuses on addressing the needs of young people, delivering life-saving humanitarian assistance and procuring contraceptives through UNFPA Supplies Partnership, our flagship programme on family planning.

## A champion for flexible funding

In 2022, the Netherlands was UNFPA's fifth-largest contributor of voluntary core resources, which allows us to operate everywhere in the world and respond to the urgent needs of women and girls.

# ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on governments and other partners to support our programmes.

## Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices

# UNFPA and the Netherlands

## A partnership for women and girls

Thanks to the Netherlands' strong partnership with UNFPA, more women and girls around the world are enjoying healthier, more fulfilled lives, free from violence.

See how the Netherlands is making a difference.
