

# OUR PARTNERSHIP

## A steadfast humanitarian donor

In times of crisis, the United Kingdom and UNFPA collaborate to provide life-saving assistance to the most vulnerable women and girls. In 2022, the United Kingdom was UNFPA's fourth-largest provider of humanitarian support, enabling the delivery of sexual and reproductive health and gender-based violence protection services to reach the most vulnerable women and girls.

## Provider of life-saving supplies

In 2022, the United Kingdom was the largest donor to the UNFPA Supplies Partnership – the world's largest procurer of donated contraceptives – which provides critical maternal health medicine in many of the world's lowest-income countries. Between 2008 and 2020, the programme is estimated to have prevented 89 million unintended pregnancies and 1.6 million child deaths.

## For decades, a leading donor

The United Kingdom has consistently been among the top donors to UNFPA, supporting key programmes aimed at ending child marriage and eliminating harmful practices, such as female genital mutilation.

## ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on governments and other partners to support our programmes.

## Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices
