

# HUMANITARIAN ACTION 2021 OVERVIEW

## East and Southern Africa

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled. UNFPA's East and Southern Africa Regional Office in Johannesburg, South Africa, provides strategic support and technical expertise to colleagues in our 23 country offices and our partners who work on the ground to improve people's lives. In humanitarian settings, UNFPA works with partners to ensure the following:

- Sexual and reproductive health (SRH) services are available so women can deliver safely and access contraception.
- People in need have access to lifesaving gender-based violence (GBV) services and the necessary measures are in place to mitigate the risk of GBV throughout humanitarian responses.
- Medical supplies and commodities are available, including for menstrual hygiene management.
- The humanitarian response is informed by strong data and evidence.
- The specific needs of women, adolescent girls and young people are addressed, including mental health and psychosocial support.

#### Notes:

- Financial estimates are based on UNFPA country office planning processes and internal reporting instruments.
- Estimates also include OCHA-coordinated humanitarian response plans (including COVID-19 response), regional refugee response plans and resilience plans.
- In keeping with the Grand Bargain commitment, UNFPA reports its financial revenue data to the OCHA financial tracking system on a monthly basis.
- Numbers are provisional and subject to change as the year progresses. Figures may differ from those in the humanitarian response plans due to changing circumstances and needs.
- Results are estimated as of October/November 2020 and do not include every country in which UNFPA has delivered humanitarian services. Results will be updated on the UNFPA data portal as new data becomes available.
